

GLPI-PROJECT - Bug #1139

Keep network connection on IP change

09/12/2008 07:45 AM - remi

Status:	Closed	Start date:	
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	Export / Import	Estimated time:	0.00 hour
Target version:	0.72		

Description

When IP change in OCS, GLPI create new port and disconnect from network.

Store MAC in import IP to be able to update existing port (and keep connection) rather than delete/create a new port.

See : <http://glpi-project.org/forum/viewtopic.php?id=11905>

History
