Description	
http://www.glpi-project.org/forum/viewtopic.php?id=13084	
permit to have several group managers	
<ul style="list-style-type: none">- Create a new table : glpi_groups_users_managers- Need to modify tables naming convention...	
TO BE DISCUSSED : Use existing table glpi_groups_users. Just add a field is_manager to determine which users are managers ?	
Moyo : think that is the better solution
