

OCS Import - Feature #2379

Consider not imported computers as objects in GLPI

10/28/2010 01:59 PM - walid

Status: Closed	Start date: 10/28/2010
Priority: Normal	Due date:
Assignee: yeti	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version: 1.5.0	
Description Use the same system as for FusionInventory : <ul style="list-style-type: none">- create a new object for not imported computers- can import computer- add network port to this object (maybe history too ?) While computers are imported from the not imported computers list, use smart search to modify informations (for example serial)
