

tlflines - Bug #2881

1.1.0 not fully ready for GLPI 0.78+

06/16/2011 05:42 PM - elacour

Status:	New	Start date:	06/16/2011
Priority:	Normal	Due date:

Target version:			

Description

The add phonenumber form does not include some fields and the submit button due to the following error:

PHP Fatal error: Class 'PluginTlflinesTlflinesRoamingbono' not found in inc/db.function.php on line 266

This is because it's now needed to use singular form for such classes.

Attached patches fix this.
