

multigpi - Bug #3170

Use error message detection functions provided by webservices plugin

10/04/2011 10:54 PM - valid

Status: Closed	Start date: 10/04/2011
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version: 1.0	
Description	
When testing :	
<pre>if(is_array(\$result) and isset(\$result['session'])){</pre>	
must be replaced by	
<pre>if (PluginWebservicesMethodCommon::isError(\$result, \$protocol)) {</pre>
