

GLPI-PROJECT - Feature #3671

Import Location from LDAP

06/14/2012 11:26 AM - remi

Status:	Feedback	Start date:	06/14/2012
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Authentication	Estimated time:	0.00 hour
Target version:	Unplanned		
Description			
There is no way to automatically set user location. Could be: <ul style="list-style-type: none">- a field mapping in Ldap configuration- a rule action			

History

#1 - 06/14/2012 11:30 AM - moyo

- Target version set to 0.84

update version to be more visible

#2 - 07/11/2012 10:59 PM - moyo

LDAP mapping should be done using rules ?

#3 - 03/05/2013 03:08 PM - moyo

- Target version changed from 0.84 to Unplanned

#4 - 05/15/2013 01:56 AM - berserker

I think it should be done using rules, because we can have many source for setting location :

- LDAP Mapping
- Based on DN / Organisational Unit

Also, what happens if we set manually a location ?

Rules must apply on import and / or Sync (to manage change) ?
