

GLPI-PROJECT - Feature #4248

Review Update massive action system

03/01/2013 04:38 PM - moyo

Status:	New	Start date:	
Priority:	Normal	Due date:	
Assignee:	webmyster	% Done:	0%
Category:	Framework	Estimated time:	0.00 hour
Target version:	Candidate for next major version		
Description			
<p>Actually massive action call update of main object. We need to use a specific system to manage infocom system but plugins can not update their own fields.</p> <p>Try to find a solution (maybe split update in several items) to permit clean update of infocoms + update of plugins calling update of right object.</p> <p>Trouble : how to pass the id of the main object to be manage by update of object ?</p> <ul style="list-style-type: none">- infocoms : use itemtype + items_id- plugins ? maybe only use items_id but named as mainobject_id...
