

GLPI-PROJECT - Feature #4280

Add a javascript control to disable user's interaction during a form post

03/11/2013 12:42 PM - valid

Status:	Feedback	Start date:	03/11/2013
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Ergonomics	Estimated time:	0.00 hour
Target version:	Unplanned		

Description

When a form is posted, disable user input.

This feature was already implemented by tomolino's mask plugin.

History

#1 - 06/11/2013 10:35 PM - moyo

- Target version changed from 0.85 to Unplanned

Is it really interesting with new system forbidden double post ? (CSRF)

#2 - 06/11/2013 10:35 PM - moyo

- Status changed from New to Feedback

#3 - 06/12/2013 09:14 AM - orthagh

Imo yes, thereby the user knows he must wait seeing the overlay and spinner.

This avoids unwanted clicks in the case of server or network lag (and the display of csrf error message).

I can study this feature and provide a patch (attached to this issue) soon.
