- File *lenovo.class.php* added

Hello,

I have change a fonction "getSupplierInfo" in *lenovo.class.php* with the new url:

```
function getSupplierInfo($compSerial=null, $otherserial=null) {
    $info["name"]="Lenovo";
    $info["supplier_url"] = "https://csp.lenovo.com/ibapp/il/WarrantyStatus.jsp?";
    $info["url"] = $info["supplier_url"]."serial=".$compSerial."&sysMachType=".$otherserial."&btnSubmit";
    return $info;
}
```

For me, this fonction is fonctional on url though not in plugin (Import KO (2014-07-25))

Hi how can we use this URI to have plugin be fonctionnal ?? <http://support.lenovo.com/fr/fr/warrantylookup>
Thank you

#5 - 12/01/2014 06:40 PM - Penflame

There are a Capcha on this URL <http://support.lenovo.com/fr/fr/warrantylookup> (for example:

```
<form novalidate="novalidate"
```

```
action="/services/fr/fr/warrantylookup/docapvalidation/60c6776d-f797-4ccb-88f7-f7e63abc4086?dataSource=057742d3-fe65-492c-8fa6-c4ddc5da5727" class="
```

```
" class="serial8i NumberForm" data-ajax="true" data-ajax-complete="WarrantylookupLoadComplete()" data-ajax-mode="replace"
```

```
data-ajax-update="#resultDiv" id="serialNumberForm" method="post"> )__
```

The best solution is to use this URL <https://csp.lenovo.com/ibapp/il/WarrantyStatus.jsp?type=&serial=##serialnumber##>

#6 - 12/09/2014 10:51 AM - orthagh

- Assignee changed from SphynXz to orthagh
- Target version deleted (1.6.1)

nop,

this url <https://csp.lenovo.com/ibapp/il/WarrantyStatus.jsp?type=&serial=##serialnumber##>
doesn't contains any start date (only an end date of warranty)

The new one (<http://support.lenovo.com/us/en/warrantylookup>) contains all the needed information but cannot be parsed for the moment (ajax call with csrf protection)

no more idea for the moment

Bonjour, serait-il possible que le plugin gère les extensions de garantie (Surtout pour Lenovo).

En effet, il trouve bien la date de début mais met systématiquement la durée de garantie à 12 mois alors que concernant notre parc, c'est 36 mois en prenant en compte l'extension de garantie
