Description

With php 5.5, some warnings appear when answering to a form :

18-04-2014 08:12

Deprecated function(8192): preg_replace(): The /e modifier is deprecated, use preg_replace_callback instead

Backtrace :

/media/adelaunay/f8300cb9-ce6d-419c-bd74-5040e0102657/www/clients/1026/inc/toolbox.class.php:490

Toolbox::userErrorHandlerNormal()

/media/adelaunay/f8300cb9-ce6d-419c-bd74-5040e0102657/www/clients/1026/plugins/formcreator/front/form.helpdesk.php:159

9 preg_replace()

After some tests, i suggest the below code :

```
$chaine = preg_replace_callback("#\[url\]((ht|f)tp://)([^\r\n\t<']*?)[/url]\#si",  
function($matches) {  
    return '<a href="'. $matches[1].  
        str_replace(' ', '%20', $matches[3]).' ">'.  
        $matches[1]. $matches[3]. '</a>';  
}, $chaine);
```

instead preg_replace l158

Escaping a double quote is useless when the string is between single quotes.

Implemented in a very similar way in revision 114
