

Formcreator - Bug #5017

v1.8.1 : tables structure update is not taken into account

07/21/2014 10:09 AM - blerohellec

Status:	New	Start date:	07/21/2014

Target version:			
Description			
<p>Incident detected : when updating Form Creator to version 1.8.1, plugin tables were not modified (column 'cat' is missing in table _forms, column 'type' is missing in table _targets).</p> <p>Hook.php analysis (version 1.8.1) shows that only tables creation is handled, but not tables update.</p>
