#### Description

In tab Typology of a computer, Mngt Console, add the criterion to which each definition belongs to.  
If there is enough space.

Can you try with 0.85 version ?

It's the same with the tarball installed upon GLPI 0.85.

I fear I was not precise enough in my request : the idea is to add the criterion's name in the mngt console (the criterion's item - software, processor.. - being already displayed).
