Description			
Version 2.0.2			
in a contract type form, there are 2 fields called :			
1- enter employer information about the resource			
2- enter the computing needs of the resource			
In a list view of the types of contract,			
- 2 is not present and is replaced by 'enter general information about the resource'			
- value of 2 is displayed in column 1, and vice-versa
