#### Description

Version 4.0.0 & 4.1.0

In configuring the display materiels, the view proposes to add the field 'display in the detail of the object' :

- which doesn't exist in the 'display of equipment' form

- which doesn't exist in db. If I add the field to the view, I get a sql error (see hereafter) where it looks for column 'display\_on\_map' in table \_infos.

```
SQL: SELECT `glpi` AS currentuser,
        `glpi_plugin_positions_infos`.`entities_id`, `glpi_plugin_positions_infos`.`is_recursive`,
`glpi_plugin_positions_infos`.`name` AS `ITEM_0`,
        `glpi_plugin_positions_infos`.`id` AS `ITEM_0_id`,

        ) WHERE `glpi_plugin_positions_infos`.`is_deleted` = '0' GROUP BY

```
